Activity Report for Fiscal Year Ending March 31, 2024

- We monitored our supply chains by conducting evaluations of our suppliers to ensure that they continue to meet our commercial and ethical requirements, including compliance with human rights provisions prohibiting slavery and human trafficking. This annual supplier evaluation process has been implemented since 2009.
- We have sent Self-Assessment Questionnaire (SAQ) to all suppliers, continue to analyze the responses, and issued "Request for improvement based on responses to the CSR Self-Assessment Sheet" to companies with issues.
- Internal personnel in charge of procurement attended a training course in line with "Responsible Business Conduct Guidelines" provided by CSR Committee of the Policy and Strategy Board of the Japan Electronics and Information Technology Industries Association (JEITA), to promote understanding of the initiatives required in procurement, including child labor and forced labor.
- We have conducted an annual human rights risk surveillance for our Group companies worldwide, and strives to identify, prevent, and mitigate adverse impacts on human rights in our business activities.

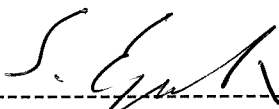

Further steps

- Following a review of the effectiveness of the steps we have taken this year to ensure that there is no slavery or human trafficking in our supply chains and business, we intend to take further appropriate steps to combat slavery and human trafficking.
- During the fiscal year ending March 31, 2025 we are planning the following actions.
 - To continue sending Self-Assessment Questionnaire (SAQ) to all suppliers, analyze the responses, and to issue "Request for improvement based on responses to the CSR Self-Assessment Sheet" to companies with issues and to request suppliers to report on the progress of improvements.
 - We will revise our Human Rights Policy, taking into account the evolving social context surrounding business and human rights, as well as the progress of our human rights due diligence. This policy will require not only our own officers and employees, but also all external partners in the value chain, including business partners and suppliers that may have an impact through our business.
 - To continue human rights risk surveillance for our Group companies worldwide, and to hold seminars on human rights for Group employees.

This statement is made pursuant to section 54(1) of the U.K. Modern Slavery Act 2015 and constitutes our Group's slavery and human trafficking statement for the financial year ending March 2024

It also constitutes JKUK's statement for the same purpose, however subject to the qualification that instead of having a dedicated compliance section, JKUK instead has a person assigned to manage compliance, who liaises with other concerned persons as appropriate.
